Certain food businesses are required to hold a licence with the NSW Food Authority (the Authority) to operate. Businesses that operate without the appropriate licence from the Authority are committing an offence under the *Food Act 2003* and may be prosecuted.

Did you know ... if you are applying to licence a business and do not hold a current NSW Food Authority licence, you can now lodge your application online by going to the online application form link at www.foodauthority.nsw.gov.au (Please note: conditions apply for use of online applications).

Who needs to be licensed?

Under Food Regulation 2015, food businesses must hold a licence with the Authority if they distribute and/or transport:

- milk or dairy products as defined under Clause 62 of the Dairy Food Safety Scheme (Part 8 of the Regulation) and defined as a "Vehicle Vendor or Dairy transport business" under Clause 59;
- meat or meat products (including animal food or game meat) as defined under Clause 76 of the Meat Food Safety Scheme (Part 9 of the Regulation) and defined as a "Meat business" under Clause 79, ie animal food van, animal food field harvesting van, game meat field harvesting van or meat van;
- plants products as defined under Clause 120 of the Plant Products Food Safety Scheme (Part 10 of the Regulation) and defined as a "Plant products business" under Clause 124;
- seafood or seafood products as defined under Clause 133 of the Seafood Safety Scheme (Part 11 of the Regulation) and defined as a "Seafood business" under Clause 134;
- egg or egg products as defined under Clause 165 of the Egg Food Safety Scheme (Part 13 of the Regulation) and defined as an "egg business", "egg product" and "blended egg product mixture" under Clause 168.

Licensing under this Regulation is used to ensure that a business has the capacity to produce safe food before the food is supplied to the market. A licence is not transferable from one person or business to another.

What do I need to comply with?

Any businesses licensed with the Authority must comply with the *Food Act 2003*, Food Regulation 2015 and the Food Standards Code.

If applying as a dairy transport business that collects and transports milk and liquid milk products from a dairy primary production business to a dairy processing business - develop and implement an adequate food safety program under the Food Regulation 2015 based on Standard 3.2.1 of the Food Standards Code or Codex HACCP. The program must accurately outline the hazards associated with the food business' operations. Assistance material is available from the NSW Food Authority's web site at www.foodauthority.nsw.gov.au. Where a food safety program is required for businesses under the legislation, failure to have a food safety program available for review at the compliance inspection may result in the non-issue of licence to operate.

If applying as an egg transport business – implement certain food safety requirements. Information on these requirements is available from the Authority's website at:

- <https://www.foodauthority.nsw.gov.au/industry/eggs/egg-transporters>
- <https://www.foodauthority.nsw.gov.au/industry/eggs>
- <https://www.foodauthority.nsw.gov.au/>

If applying as a game meat field harvesting van - develop and implement an adequate food safety program under the Food Regulation 2015 based on Standard 3.2.1 of the Food Standards Code or Codex HACCP. The program must accurately outline the hazards associated with the food business' operations. Assistance material is available from the NSW Food Authority's web site at www.foodauthority.nsw.gov.au. Where a food safety program is required for businesses under the legislation, failure to have a food safety program available for review at the compliance inspection may result in the non-issue of licence to operate.

What do I need to do next?

- Complete the licence application form and return with payment to: NSW Food Authority, PO Box 232, Taree NSW 2430.
- You must not commence operations until the above steps have been completed and you are informed that your licence application has been processed. If the vehicle/s are found to be operating without a licence, enforcement action will be taken.
- Prior to the approval of a licence, a licensing assessment will be carried out to ensure compliance with the Food Standards Code and Food Regulation 2015. If the result of the assessment is unacceptable, the licence may not be approved, and the licence application may be rejected. It is highly recommended the applicant refer to the Authority's website for information relating to the assessment process and industry sector requirements.
- If applying for an animal food field harvesting van or game meat field harvesting van licence, please ensure that an approved course has been completed before submission of this application form.

Processing times

The Authority will review your application within **10 working days** of receiving your licence application and you will be notified if any further information is required. If your application is complete the Authority will write to you to let you know your licence application has been processed and provide you with a time frame for completion of the licensing assessment that is required.

IMPORTANT NOTES

- If licensing more than five vehicles, please provide details on a separate page and attach it to this form or photocopy page 7 of this application for the required number of vehicles. If more than one application form is submitted at the same time only one application fee will be required.
- Please ensure that each page of the application is completed (where applicable) and checked before it is returned as failure to provide all information or signature(s) will result in delays in processing and issuing of the Licence.
- For more information or assistance please contact the Authority's Licensing Unit on 1300 552 406 on business days from 9.30am – 4.30pm or go to the Authority's website at www.foodauthority.nsw.gov.au/industry/food-standards-and-requirements/licensing.
